

ERRATUM – Prospecting variability in full-sib families of *Psidium guajava* L. through phenotypic information and SNP markers

Section Editor: Cláudia Sales Marinho 

In the article Marques, F. C. R., Viana, A. P., Costa, T. C., Silva, F. A., Silva Júnior, O. B. and Grattapaglia, D. (2025). Prospecting variability in full-sib families of *Psidium guajava* L. through phenotypic information and SNP markers. *Bragantia*, 84, e20240087. <https://doi.org/10.1590/1678-4499.20240087>

In pag 1

Where it read:

The guava (*Psidium guajava* L.) belongs to the family Myrtaceae and the subclass Rosidae. It is a perennial and monoecious species.

It reads:

The guava (*Psidium guajava* L.) belongs to the family Myrtaceae and the subclass Rosidae.

In pag 5

Where it read:

A descriptive analysis was performed on the variables analyzed. Mean, maximum, and minimum data are available in Table 1. AMOVA analysis was implemented considering the 11 FSF and individuals in the FSF as hierarchical levels (Table 3).

It reads:

AMOVA analysis was implemented considering the 11 FSF and individuals in the FSF as hierarchical levels (Table 3).
